Serial	Item / Record of decisions
1	Opening remarks and introduction. Mrs Nunweiler introduced herself and explained what the parent council is. The School Council is a bridge between the school and the community designed to get what's best for the children in the school, it is the parents voice in the community.
2	Mrs Nunweiler announced the updates made to the parent handbook based on parent feedback. Updates focussed on the school's safety protocols and dismissal process after an incident.
3	Mrs Nunweiler and Mr Carrier provided feedback on the students and teachers after they had carried out a simulated lockdown. All teachers and students performed well and followed all protocols.
4	Mrs Nunweiler provided an update regarding the curriculum differences between UK and Canadian schools and that Mrs Stanton would be available every Wednesday after school, 1530-1430, in the junior library to aid and provide material for students.
5	Mrs Nunweiler delivered a presentation on assessments for students and how they work. Including MAP testing, H LAT, SLA's and EICS manifest assessments more information can be obtained from the school. However, all students have been identified as not at risk.
6	The school has updated their policy on sharing students work based on lessons previously learned. Concerns had been raised previously about breaches of data protection through unauthorised disposal of work. Parents are to speak directly with teachers to obtain students work if required, anything not requested or claimed will be shredded prior to disposal,
7	Mrs Keast raised the issue the school has regarding snow and ice clearance and the lack of ability for them to store sand and aggregate to lay on frozen paths. Mr Rossiter said he may be able to assist and will look to provide the school with a storage solution.
8	The next meeting will be on November 15 th 2023 @ 1730hrs.

Tom Rossiter
Parent Council Chair (Deputy)
